

ASWIN P

Python Developer | MCA | Django, FastAPI, Machine Learning

■ aswinp.clt2002@gmail.com ■ 9539436250 ■ github.com/aswinpclt ■ linkedin.com/in/aswin-p-ba8b01421

PROFESSIONAL SUMMARY

Entry-level Python Developer with strong fundamentals in Data Structures, OOP, and Database Management. Built end-to-end backend systems using Django and FastAPI with REST API design. Trained a GradientBoostingRegressor model (R^2 0.90) for insurance premium prediction. Seeking a fresher Python Developer role to build scalable applications.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML5, CSS3

Frameworks: Django, Django REST Framework, FastAPI

Core Concepts: OOP, Data Structures, REST APIs, CRUD Operations, MVC, Authentication

Databases: SQLite, MySQL, Django ORM

AI/ML: Scikit-learn, Pandas, NumPy, LLM APIs (Gemini, Groq, OpenAI)

Tools: Git, GitHub, GitHub Actions, Postman, Docker, VS Code

ACADEMIC PROJECTS

InsureAI

AI-Powered Insurance Recommendation & Policy Analysis Platform | Python, Django, Scikit-learn, Gemini/Groq APIs, SQLite

- Trained GradientBoostingRegressor on 5,000+ samples across 400+ insurance policies, achieving R^2 of 0.90
- Architected two-app Django backend (insurance_ai, analyzer) with REST endpoints for recommendations and policy analysis
- Built 3-provider LLM fallback chain (Gemini → Groq → OpenRouter) for chatbot and coverage analysis
- Developed OCR pipeline (pdfplumber, pytesseract) with LLM-based policy summarization
- Implemented policy comparison, premium calculator, expiry-tracking with CRUD endpoints
- Set up CI pipeline using GitHub Actions

Jarvis

AI Assistant Backend | Python, FastAPI, REST API, LLM Integration (Ollama, Gemini)

- Built REST APIs with FastAPI to route requests to multiple AI providers
- Designed modular, provider-agnostic architecture for LLM backend integration
- Implemented context-aware conversation handling for multi-turn interactions

EDUCATION

Master of Computer Applications (MCA) | University of Calicut, CCSIT Vadakara | 2026

Bachelor of Computer Applications (BCA) | SNES Kunnamangalam, Kozhikode

CERTIFICATIONS

- Python Full Stack Development
- AWS Certification

SOFT SKILLS

Problem Solving • Analytical Thinking • Cross-functional Collaboration • Technical Communication • Fast Learner
